

Prof. Iris Zalaudek is Chair of the Department of Dermatology at the University Hospital of Trieste, Italy and of the Dermatology Clinics of the Public Hospital Giuliano-Isontina. She is Treasurer of the the World Melanoma Society (www.melanomaworldsociety.org), active Board member of the European Association of Dermato-Oncology (www.eado.org) and is past President of the International Dermoscopy Society (www.dermoscopy-idg.org).

Her main research field is related to dermato-oncology and she is member of several national and international guideline working groups on melanoma and non-melanoma skin cancerscancers. Her scientific work comprises more than 530 articles with a combined impact factor of more than 1100 and a h-index of 53 (lastest access 18. May, 2020 - Scopus).

Her research on melanocytic tumors has led to a new classification of nevi and opened new insights into nevogenesis and melanomagenesis. Moreover, her working group investigated the role of HPV in the progression of squamous cell carcinoma.
