

CURRICULUM VITAE

Prof. Petr Arenberger, MD, PhD, DSc, MBA

Date of birth: 4th December 1958, Prague, CZ

Professional:

- 1984 - 1987: 1st Dept. of Dermatovenereology, Faculty Hospital of Prague 2 (residency)
1987 - 1988: Dept. of Allergy, Faculty Hospital of Prague 10
1988 - present: Dept. of Dermatovenereology, Charles University, Third School of Medicine (with 3 years at L.M. University, Munich, Germany, and Stanford University, Palo Alto, California, USA)
2001 - present: Chairman at the Dept. of Dermatovenereology, Charles University, Third School of Medicine, Prague
2019 – present. Managing Director, University Hospital Kralovske Vinohrady, Prague

General description of research activities:

Basic research: Molecular biology and ultrastructure, e.g. receptor studies in keratinocytes, Langerhans cells, melanocytes and leukocytes derived from tissue cultures, healthy individuals or patients with inflammatory and hyperproliferative dermatoses and wound healing. His team used the quantitative real-time RT-PCR methodology to show marker expression on circulating melanoma cells in patients with malignant melanoma. His experimental and clinical research is linked also to the evaluation of nanotechnologies in wound healing.

In the clinical research he took part in a number of multinational and multicenter trials phase II + III concerning new drug development in psoriasis, atopic eczema, acne, herpes zoster, melanoma, basal cell carcinoma, chronic urticaria, and chronic wounds.

Honorary Membership in scientific societies

Deutsche Dermatologische Gesellschaft
Oesterreichische Gesellschaft fuer Dermatologie und Venerologie
Serbian Society of Dermatology
Hungarian Dermatology Society
North American Clinical Dermatology Society
Czech Dermatovenereological Society
Czech Medical Academy

Board membership in local and international societies

Czech Dermatovenereology Society – President
European Board of Dermatovenereology of the UEMS – President
Czech Medical Society – Vice-President
Society for Corrective and Esthetic Dermatology
Scientific Board of the Czech Medical Chamber
