

Ana-Maria Forsea MD, PhD

Associate Professor of Dermatology, Carol Davila University of Medicine and Pharmacy, Bucharest.

Senior Consultant for Dermatology, Department of Oncologic Dermatology Department, Elias. Secretary for Countries Integration, Member of the Executive Committee of the European Association of Dermato-Oncology (EADO).

Member of the Executive Board, International Dermoscopy Society (IDS).

Member EADV Board, Member of EADV Task Forces for Melanoma, Non-Melanoma Skin Cancer, Dermatology for Oncology Patients.

Member of the International Advisory Council of the Skin Cancer Foundation (NY, USA).

Dr. Forsea acquired her dermatology specialty training in Bucharest, Romania and in Berlin, Germany, and doctoral degrees at the Free University of Berlin, Germany and at Carol Davila University of Medicine and Pharmacy Bucharest, studying experimental therapies for melanoma. She pursued her post-doctoral research as Visiting Scientist at Harvard School of Public Health, Boston, working on strategies and education programs for skin cancer early detection.

Her scientific interests focus on strategies and techniques for skin cancer prevention and early detection, cancer registration and intra-European disparities in skin cancer burden and access to care.
