

**Dr. Paul Nathan MB.BS., PhD, FRCP**  
**Consultant Medical Oncologist**  
**Mount Vernon Cancer Centre**  
**UK**

### **Biography**

Dr. Nathan is consultant medical oncologist at Mount Vernon Cancer Centre, Northwood, UK. His specialist interests are the treatment of malignant melanoma and renal cell carcinoma. His clinical training was through Cambridge and London having had an earlier scientific career in academia and the pharmaceutical industry.

He is chief investigator, steering committee member and data monitoring committee member for a number of academic and pharma sponsored clinical trials. He has authored many high impact papers and a number of book chapters. He is a trustee of Melanoma Focus the UK national melanoma charity and an ex-trustee of Kidney Cancer UK. He recently stepped down from chairing the NCRI Bladder and Renal Carcinoma Clinical Studies Group.

He is EORTC Uveal Melanoma lead, International Rare Cancer Initiative (IRCI) UK Uveal melanoma lead and chairs the UK guideline group on Uveal Melanoma.
